Data Source: California Dept. of Education DataQuest. <http://data1.cde.ca.gov/dataquest/>. Retrieved 04/21/08.

Footnote: LNE (Low Number Event) means that the number of students tested is 10 or fewer. Years presented are the final year of a school year, e.g., 1998-1999 is shown as 1999. Data are not available for 1999-2000. N/A means that data do not exist or are unusable. Whisman Elementary and Mountain View Elementary School Districts combined in 2002; therefore, no data exist for each individual district after 2001. Charter school data are presented individually and are not included in the school districts with which they are associated.

In order to meet fitness standards, children must score in the "Healthy Fitness Zone" on six out of six fitness tests (for more information, see "What It Is" below). If fewer than six tests are administered, it is not possible for any students to meet all six fitness standards; this may be the case for districts with 0%.
